Spirits of Atacama

What is Atacama Spirits?

A SPORTING EVENT THAT CHANGES LIVES

Atacama Spirits is a timed, multi-stage cycling and navigation race. It is a 7-day, 550-kilometer ultramarathon that crosses the Atacama Desert from one side to the other, very close to its widest point, and connects the Andes Mountains with the Pacific Ocean.

A UNIQUE CHALLENGE

Such a demanding endurance test requires our runners to prepare for a long time. The only way to finish a race like this is by preparing body, mind, and soul. No one is ever the same after something like this.

WORLD RECORD

AtacamaSpirits is the mountain bike race that reaches the highest geographical altitude in the world, reaching 5700 meters above sea level in one of its stages.

Who can participate?

A SPORTING EVENT FOR FANS

Whether you're a high-performance athlete or an avid cyclist, our event is designed to offer challenging routes and bring out the best in you. We offer an all-inclusive experience that has been refined year after year to meet the needs of both professional and amateur riders. We provide meals, accommodation, transportation, recovery massages, medical attention, basic bike repairs, and everything else you need to complete each stage in the shortest possible time and feel immersed in an entertaining and increasingly well-produced sporting event.

Companion Tickets

PARTICIPATE WITH YOUR FAMILY OR FRIENDS

We've created a ticket so your friends and family can also participate and share the joy of crossing the desert by bicycle with them. There are two options.

STAFF MODE

In Staff mode, your companion will be part of the team, traveling with you and even being asked to assist with tasks such as aid stations or finish line activities. By participating in this mode, they will be able to see the course and experience it firsthand. They will be able to wait for you at the finish line and more. They will also have access to the camp, food, and gifts.

TOURIST MODE

In tourist mode, we design activities completely unrelated to the race, although they share the camp at the end of each day.

The objective of this format is to showcase the most relevant tourist attractions along the route.

Where does the event take place?

OUR HOME CITY, CALAMA

The oasis city of Calama is located in the Antofagasta Region of northern Chile, about 1,600 kilometers north of Santiago. Its geographical position makes it the ideal gateway to the Atacama Desert. Just a few hours away from most of the Atacama Desert's attractions, Calama offers ample services for travelers and adventurers. Its airport is called El Loa Airport.

Cycling in a unique place in the world

7 days in the Atacama Desert

UNIQUE PLACES, LANDSCAPES AND MOMENTS

The Atacama Desert, the driest non-polar desert on Earth, offers unique opportunities and landscapes for mountain biking. For years, we have been developing an experience that connects all these locations and points of interest, allowing our riders to immerse themselves in a truly unparalleled territory. We have linked sites of tourist, historical, scientific, and archaeological interest, and even places inaccessible to the average tourist.

Our Story

Origins

YEARS OF DEVELOPMENT AND BIG DREAMS

Christian Téllez, creator of Atacama Spirits, is an Industrial Designer from DUOC UC, specialized in KAIST (South Korea). He has extensive experience in entrepreneurship and the creation of both tangible and intangible products that have garnered national and international recognition. His experience in organizing sporting events began with 21 Leagues, "The Messenger's Challenge." Christian worked on this project for three years but decided to go independent, creating Atacama Spirits with support from a CORFO grant. Atacama Spirits has already been held seven times. "We already have many of the elements offered by any international-level ultramarathon. By 2026, we hope to consolidate a truly unmissable cycling experience."
